

Euclide

'Euclide' has a structural, masculine and geometrical format, built with a circle inscribed in a square. The mixture of round and square lines adds a glimpse of clumsiness to the piece which makes it irresistibly adorable.

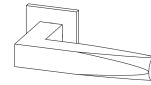

The 'Euclide' collection is made of solid brass with a polished nickel finish. Other finishes are available on demand.

Jean-Francois D'Or

Exploring numerous materials, Jean-Francois D'Or brings out their beauty without ostentation. His simple, unpretentious, logical objects appeal with their evident, clearly perceptible design as well as their discrete poetry. The designer's approach takes account of company imperatives as well as user needs and is tempered by the desire to reach a market.
